

## John E. Walker III Society

### Ducks Unlimited de Mexico

Critical wetlands for waterfowl and waterbirds in Mexico are at risk. Through education, policy and restoration, Ducks Unlimited de Mexico (DUMAC) is making a difference. Coastal marsh and estuary conservation are important to protect this critical wintering habitat for waterfowl. Mapping and inventorying crucial wetlands using satellite technology inform our policy and science programs. Our flagship educational program is RESERVA – a 63-day program for wildlife professionals across Central and South America.

The John E. Walker III Society honors our staunchest supporters – those who make a \$1,000 USD or more annual commitment for at least five years to the DUMAC mission and the memory of John E. Walker. Johnny was President and Chairman of the Board of Ducks Unlimited, Inc. He was also an unwavering supporter of DUMAC and served as its President until his death in 2004. There are few individuals who unselfishly contributed more to the legacy of waterfowl in North America and fewer yet who could be considered a better friend.

### Benefits of Membership

Beyond the reward provided by our conservation efforts, membership in the John E. Walker III Society will have tangible benefits as well. Charter members (those who make their commitment before June 30, 2009) will have their names engraved on plaques that will be displayed at the John E. Walker Facility in Celestun, Yucatan and at the DU Headquarters in Memphis, Tennessee. Additionally, Society members will receive:

- A hand-carved blue-winged teal decoy with base and brass plate identifying your membership in the Society.
- Semi-annual Conservation Report from DUMAC leadership.
- A legacy for your children, grandchildren and future generations.

*Ducks Unlimited conserves restores and manages wetlands and associated habitats for North America's waterfowl. These habitats also benefit other wildlife and people.*
